Wholesale Farm Seed Price List

A Message to Our Dealers

Due to short seed crops in Canada and in various European countries, a heavy demand has been placed on our domestic supplies with resulting firm prices on practically all farm seeds.

Incentive payments offered under the Agricultural Conservation Program and wheat acreage restrictions are expected to create a heavy demand for grasses, legumes, flax, etc., thus adding to the firmness in the market caused by short supplies of many items.

In order to keep your customers fully informed on benefits offered under the ACP, we suggest you contact your local or county office for detailed information.

It will be to your advantage to order your seed early while stocks are still available. Delivery can be arranged at your convenience. Our fleet of trucks assures you of excellent service from Brookings, S. Dak., or you may draw on our various storage stocks located at convenient points throughout our territory as listed below.
